## **African Safari**

Discover the wonders of Africa on an imaginary safari as you explore the grasslands of the Savannah. As we camp beside a waterhole, we will learn about the amazing animals that come to drink.

## **Amazing Animals Around the World**

Join Science Explorers as we travel the world visiting all seven continents, along with a dip into the surrounding oceans, to discover their most amazing and unique animals.

## **Amazing Me**

Without your body you wouldn't be able to run, jump, breath or even think. Join Amazing Me as we use our cranium to learn what really happens beneath our skin.

## **Buggy for Bugs**

Are you buggy for bugs? Do you like the creepy, crawlers of the immense insect world? Then join us as we investigate the lifecycles of these amazing creatures along with how they eat, smell and survive.

## **Camp Caterpillar**

Our earth is a wonderful adventure just waiting for you! Each day at Camp Caterpillar, you will be exploring the earth from the sky to the ground.

## **Camp KinderSprouts—Summer**

Exclusively for children entering kindergarten. Join Science Explorers as we discover the world around us while brushing up on the skills needed for kindergarten.

## **Dynamite Dinosaurs**

Enter the Science Explorers' time machine and journey back to a world where dinosaurs ruled the earth.

## **Fall into Science**

Join Science Explorers as we discover this wonderful time of year. As fall comes to Minnesota, we will learn how nature responds to the changes happening all around us through migration, hibernation and adaption

## **Fascinating Physics**

In Fascinating Physics, preschoolers will use their natural curiosity to explore physics, the science of motion.

## **Fun on the Farm**

Join Science Explorers as we learn about life on the family farm. We will discover how farmers grow our food and investigate the animals that make a farm their home.

## **Kitchen Science**

Our kitchens can be an amazing science lab. Join Science Explorers as we experiment with things you can find in your kitchen.

## **Mixture Madness**

Pour, mix, measure and stir. In Mixture Madness you will be exploring chemistry by mixing together safe ingredients.

## **Rockin' Reptiles**

Ever wonder why reptiles have scales? Are snakes really slimy? What do reptiles in Minnesota do in the winter?

## **Rainforest Journey**

Travel along with Science Explorers as we investigate an environment where it's always warm, the trees are always green, and the animals are very unique.

## **Stars, Planets and Stories**

Blast off with Science Explorers for a fun filled trip to the stars.

## **Wheels, Wings, Sails and Rails**

Ever wonder how a plane flies or how a train is powered? We will discover how cars, planes and trains work and why they are important to our everyday life.

## **Wonders of Nature**

Have you ever wondered how animals survive in nature? In this class, we will discover the strange and fascinating ways nature takes care of its animals.

## **Under the Sea**

Dolphins, whales, coral, starfish and more! Join Science Explorers as we explore the ocean as we pretend to swim under the sea.

## **Zany Zoo**

Do you love animals? Then hop on board the Science Explorers' Monorail for a journey through our Zany Zoo.
